

Range.BorderAround

Description

Returns a [Border](#) object that represents a border around the range.

C#

```
public Border BorderAround{ get; }
```

vb.net

```
Public ReadOnly Property BorderAround() As Border
```

Examples

C#

```
//--- Get BorderAround  
    Border b = rng.BorderAround;  
  
    //--- Set BorderAround  
    rng.BorderAround = b;
```

vb.net

```
'--- Get BorderAround  
    Dim b As Border = rng.BorderAround  
  
    '--- Set BorderAround  
    rng.BorderAround = b
```
