

Shapes.Item(Int32)

Description

Returns the [Shape](#) object at the specified position in the [Shapes](#) collection.

C#

```
public Shape this[int position] { get; }
```

vb.net

```
Public Default ReadOnly Property Item(ByVal position As Integer) As Shape
```

Parameters

position

A valid index between 0 and [Shapes.Count](#).

Returns

The Shape object at the specified position.
