

Worksheet.ZoomPercentage

Description

Sets or returns the percentage of standard size by which the worksheet will be magnified or reduced. Set this property to a value between 10 and 400.

C#

```
public int ZoomPercentage{ get; set; }
```

vb.net

```
Public Property ZoomPercentage() As Integer
```

Remarks

By default the worksheet will have a ZoomPercentage of 100, corresponding to the standard zoom level. Adjusting this property to a larger number will magnify the worksheet, making it so that the contents are larger but less can be displayed on the screen. Setting this property to a smaller number will zoom out, revealing more of the worksheet.

Exceptions

ArgumentException

Thrown if you set the property to a value that is less than 10 or greater than 400

Examples

C#

```
//--- Get Zoom
int zoom = ws.ZoomPercentage;

//--- Set Zoom
ws.ZoomPercentage = 50;
```

vb.net

```
'--- Get Zoom  
Dim zoom As Integer = ws.ZoomPercentage  
  
'--- Set Zoom  
ws.ZoomPercentage = 50
```
