

# Area.ColumnCount

## Description

Sets or returns the number of columns in the area.

### C#

```
public int ColumnCount{ get; }
```

### vb.net

```
Public ReadOnly Property ColumnCount() As Integer
```

## Examples

### C#

```
//--- Get ColumnCount  
int colCount = a.ColumnCount;  
  
//--- Set ColumnCount  
a.ColumnCount = 7;
```

### vb.net

```
'--- Get ColumnCount  
Dim colCount As Integer = a.ColumnCount  
  
'--- Set ColumnCount  
a.ColumnCount = 7
```
