

# CategoryAxis.MajorUnitValue

## Description

Specifies the number of [MajorUnits](#) between axis labels and major tick marks for time-scaled axes.

### C#

```
public int MajorUnitValue{ get; set; }
```

### vb.net

```
Public Property MajorUnitValue() As Integer
```

## Remarks

For more information, see the remarks in [MajorUnit](#).

The default value for newly-created charts is 1 day.
