

Font.Color

Description

Sets or returns the color of the font.

C#

```
public Color Color{ get; set; }
```

vb.net

```
Public Property Color() As Color
```

Examples

C#

```
//--- Get Color
    Color fontClr = fnt.Color;

    //--- Set Color
    fnt.Color = wb.Palette.GetClosestColor(100, 100, 255);
```

vb.net

```
'--- Get Color
    Dim fontClr As Color = fnt.Color

    '--- Set Color
    fnt.Color = wb.Palette.GetClosestColor(100, 100, 255)
```
