

PageSetup.FitToPagesWide

Description

Sets or returns [FitToPagesWide](#). This is set to 1 by default. The valid range of values is 0 through 32767. A value of 0 means "auto".

(This is not supported for charts.)

C#

```
public int FitToPagesWide{ get; set; }
```

vb.net

```
Public Property FitToPagesWide() As Integer
```

Remarks

Note: The pair of properties `FitToPagesWide` and `FitToPagesTall`, and `Zoom` are mutually exclusive.

Examples

C#

```
//--- Get FitToPagesWide
bool pagesWide = ps.FitToPagesWide;

//--- Set FitToPagesWide
ps.FitToPagesWide = 2;
```

vb.net

```
'--- Get FitToPagesWide
Dim pagesWide As Boolean = ps.FitToPagesWide

'--- Set FitToPagesWide
ps.FitToPagesWide = 2
```
