

# DocumentProperties.Clear()

## Description

Clears all properties contained in the [DocumentProperties](#) object, removing them from the workbook's Properties sheet.

**C#**

```
<p> public void Clear()</p>
```

**vb.net**

```
<p>Public Sub Clear()</p>
```

## Examples

**C#**

```
docProps.Clear();
```

**vb.net**

```
docProps.Clear()
```
