# CopyPasteProperties.CopyComments

## Description

A boolean value indicating whether or not to copy comments. If this value is set to true, then any comments attached to cells in the copy area will be copied.

**C#**

```csharp
public boolean CopyComments{ get; set; }
```

**vb.net**

```vbnet
Public Property CopyComments() As Boolean
```

## Examples

**C#**

```csharp
//--- Is the property object set to copy comments?
        boolean willCopyComments = copyPasteProperties.CopyComments;

        //--- Set the property object to copy cell values.
        copyPasteProperties.CopyComments = true;
```

**vb.net**

```vbnet
'--- Is the property object set to copy comments?
        Dim willCopyComments As Boolean = copyPasteProperties.CopyComments

        '--- Set the property object to copy comments.
        copyPasteProperties.CopyComments = True
```
