

Worksheet.SheetProtection

Introduced in build 8.6.1

Description

Returns a [SheetProtection](#) object containing all protection properties on the worksheet.

C#

```
public SheetProtection SheetProtection{ get; }
```

vb.net

```
Public ReadOnly Property SheetProtection() As SheetProtection
```

Examples

C#

```
SheetProtection protection = ws.SheetProtection;
```

vb.net

```
Dim protection As SheetProtection = ws.SheetProtection
```
