

PageSetup.BottomMargin

Description

Sets or returns the value of the worksheet's bottom margin, in inches. This is the space between the worksheet data and the bottom edge of the printed page. This is set to 1 by default. The valid range of values is 0 through 100, and is also limited by the paper size.

C#

```
<p> public double BottomMargin{ get; set; }</p>
```

vb.net

```
<p>Public Property BottomMargin() As Double</p>
```

Examples

C#

```
//--- Get BottomMargin
double btmMargin = ps.BottomMargin;

//--- Set BottomMargin
ps.BottomMargin = 2;
```

vb.net

```
'--- Get BottomMargin
Dim btmMargin As Double = ps.BottomMargin

'--- Set BottomMargin
ps.BottomMargin = 2
```
