

Font.VerticalPosition

Description

A vertical value specifies the vertical position of a font in relation to other text.

C#

```
public sealed class VerticalPosition : TypesafeEnum
```

vb.net

```
Public NotInheritable Class VerticalPosition  
    Inherits TypesafeEnum
```

Values

Name	Description
None	Standard vertical position
Subscript	The font will be slightly lower than other text.
Superscript	The font will be slightly higher than other text.
