

# CompatibilitySettings.TruncateFontHeight

## Description

Sets or returns a boolean that represents whether or not Word will truncate font heights for this document.

**C#**

```
public boolean TruncateFontHeight{ get; set; }
```

**vb.net**

```
Public Property TruncateFontHeight() As Boolean
```

## Remarks

MS Word equivalent: Tools menu > Options... > Compatibility tab > Compatibility options for [filename].doc section > Options > Truncate font height

## Examples

**C#**

```
//--- Return TruncateFontHeight
    bool truncateFontHeight = cs.TruncateFontHeight;

//--- Set TruncateFontHeight
cs.TruncateFontHeight = true;
```

**vb.net**

```
'--- Return TruncateFontHeight
    Dim truncateFontHeight As Boolean = cs.TruncateFontHeight

'--- Set TruncateFontHeight
cs.TruncateFontHeight = True
```
