CopyPasteProperties.CopyComments

Description

A boolean value indicating whether or not to copy comments. If this value is set to true, then any comments attached to cells in the copy area will be copied.

```
public boolean CopyComments{ get; set; }

vb.net

Public Property CopyComments() As Boolean
```

Examples

```
vb.net
'--- Is the property object set to copy comments?
        Dim willCopyComments As Boolean = copyPasteProperties.CopyComments

'--- Set the property object to copy comments.
        copyPasteProperties.CopyComments = True
```
