

# CompatibilitySettings.UseTableStylesLike2002

## Description

Sets or returns a `boolean` that represents whether or not Word will use table styles like Word 2002. Word 2002 places the top border of a column under the heading row, rather than above it as Word 2003 does.

### C#

```
<p>public boolean UseTableStylesLike2002 { get; set; }</p>
```

### vb.net

```
<p>Public Property UseTableStylesLike2002() As Boolean</p>
```

## Remarks

MS Word equivalent: Tools menu > Options... > Compatibility tab > Compatibility options for [filename].doc section > Options > Use Word 2002 table style rules

## Examples

### C#

```
//--- Return UseTableStylesLike2002
    bool useTableStylesLike2002 = cs.UseTableStylesLike2002;

//--- Set UseTableStylesLike2002
cs.UseTableStylesLike2002 = true;
```

### vb.net

```
'--- Return UseTableStylesLike2002
    Dim useTableStylesLike2002 As Boolean = cs.UseTableStylesLike2002

'--- Set UseTableStylesLike2002
cs.UseTableStylesLike2002 = True
```
