

DataImportProperties.MaxRows

Description

Sets or returns the maximum number of rows to import from the data source.

C#

```
<p> public int MaxRows{ get; set; }</p>
```

vb.net

```
<p>Public Property MaxRows() As Integer</p>
```

Examples

C#

```
//--- Get MaxRows
    int maxRows = importProps.MaxRows;

    //--- Set MaxRows
    importProps.MaxRows = 20;
```

vb.net

```
'--- Get MaxRows
    Dim maxRows As Integer = importProps.MaxRows

    '--- Set MaxRows
    importProps.MaxRows = 20
```
