

Style.CellLocked

Description

Sets or returns whether a cell will be locked in a protected worksheet.

C#

```
<p> public boolean CellLocked{ get; set; }</p>
```

vb.net

```
<p>Public Property CellLocked() As Boolean</p>
```

Examples

C#

```
//--- Get CellLocked
    bool locked = style.CellLocked;

    //--- Set CellLocked
    style.CellLocked = true;
```

vb.net

```
'--- Get CellLocked
    Dim locked As Boolean = style.CellLocked

    '--- Set CellLocked
    style.CellLocked = True
```
