

AbsolutePositioning.HeightExact

Description

Specifies whether [AbsolutePositioning.Height](#) is an exact height (true) or a minimum height (false).

C#

```
<p> public boolean HeightExact{ get; set; }</p>
```

vb.net

```
<p>Public Property HeightExact() As Boolean</p>
```

Examples

C#

```
//--- Get HeightExact
    bool heightExact = oAbsolutePositioning.HeightExact;

    //--- Set HeightExact
    oAbsolutePositioning.Height = true;
```

vb.net

```
'--- Get HeightExact
    Dim heightExact As Boolean = oAbsolutePositioning.HeightExact

    '--- Set HeightExact
    oAbsolutePositioning.HeightExact = True
```
