

ColumnProperties.Hidden

Description

Sets or returns whether or not the column will be hidden when the workbook is opened in Excel.

C#

```
public boolean Hidden{ get; set; }
```

vb.net

```
Public Property Hidden() As Boolean
```

Examples

C#

```
bool hideCol = colProps.Hidden;  
colProps.Hidden = false;
```

vb.net

```
Dim hideCol As Boolean = colProps.Hidden  
colProps.Hidden = False
```
