

WordViewSettings.IncludeFooterInBorder

Description

Sets or returns a `boolean` that represents whether or not Word will display the footer inside the page border for a document.

C#

```
public boolean IncludeFooterInBorder{ get; set; }
```

vb.net

```
Public Property IncludeFooterInBorder() As Boolean
```

Remarks

This option is set to `true` by default.

MS Word equivalent: Format menu > Border and Shading... > Page Border tab > Options... button > Options section > Surround footer

Examples

C#

```
//--- Return IncludeHeaderInBorder
    bool includeHeader = viewSettings.IncludeHeaderInBorder;

//--- Set IncludeHeaderInBorder
viewSettings.IncludeHeaderInBorder = false;
```

vb.net

```
'--- Return IncludeHeaderInBorder
    Dim includeHeader As Boolean = viewSettings.IncludeHeaderInBorder

'--- Set IncludeHeaderInBorder
viewSettings.IncludeHeaderInBorder = False
```
