

Legend.Vertical

Description

Sets or returns whether the legend will be displayed vertically.

C#

```
public boolean Vertical{ get; set; }
```

vb.net

```
Public Property Vertical() As Boolean
```

Remarks

If you change the value of [Vertical](#), the [ChartRegion](#) properties [Height](#), [Width](#), [X](#), and [Y](#) will be automatically updated to reflect the new position. Additionally, the [Legend.Location](#) property will be changed to NotDocked.
