

DocumentProperties.LastSavedDate

Description

Sets or returns a DateTime that represents the date this file was last saved.

C#

```
public System.DateTime LastSavedDate{ get; set; }
```

vb.net

```
Public Property LastSavedDate() As Date
```

Examples

C#

```
//--- Return LastSavedDate
    DateTime oDateTime = docProps.LastSavedDate;

    //--- Set LastSavedDate
    docProps.LastSavedDate = DateTime.Now;
```

vb.net

```
'--- Return LastSavedDate
    Dim oDateTime As DateTime = docProps.LastSavedDate

    '--- Set LastSavedDate
    docProps.LastSavedDate = DateTime.Now
```
