

InlineImage.Image

Description

Sets or returns the image in its default format.

C#

```
public System.IO.Stream Image{ get; set; }
```

vb.net

```
Public Property Image() As System.IO.Stream
```

Examples

C#

```
//--- Return Image
    Stream oStream = oInlineImage.Image;

    //--- Set Image
    oInlineImage.Image = oStream;
```

vb.net

```
'--- Return Image
    Dim oStream As Stream = oInlineImage.Image

    '--- Set Image
    oInlineImage.Image = oStream
```
