

HeaderFooterPicture.Height

Description

Gets or sets the height in pixels of a picture embedded within a header or footer

C#

```
public int Height { get; set; }
```

vb.net

```
Public Function Height() As Integer
```

Examples

C#

```
HeaderFooterPicture hfp = header.GetPicture();

//--- Set height of picture to 20 pixels
hfp.Height = 20;
```

vb.net

```
Dim hfp As HeaderFooterPicture = header.GetPicture()

'--- Set height of picture to 20 pixels
hfp.Height = 20
```
