

Position.InsertHyperlink(String, String)

Description

Creates and returns a [Hyperlink](#) at this Position. This hyperlink will have the specified url and displayed text.

C#

```
public Hyperlink InsertHyperlink(System.String url, System.String display)
```

vb.net

```
Public Function InsertHyperlink(ByVal url As String, ByVal display As String) As  
Hyperlink
```

Parameters

url

A String representing the url to link to.

display

A String representing the text that will be displayed in the document for this hyperlink.

Returns

A Hyperlink object representing the newly created hyperlink.

Exceptions

System.Exception

Examples

C#

```
Hyperlink link = e.InsertHyperlink("http://www.softartisans.com", "SoftArtisans");
```

vb.net

```
Dim link As Hyperlink = e.InsertHyperlink("http://www.softartisans.com",  
"SoftArtisans")
```
