

Position.InsertTable(Int32, Int32)

Description

Creates and returns a [Table](#) at the point represented by this Position. The table will contain the specified number of rows and columns.

C#

```
public Table InsertTable(int rows, int columns)
```

vb.net

```
Public Function InsertTable(ByVal rows As Integer, ByVal columns As Integer) As Table
```

Parameters

rows

An int representing the number of rows the table will have.

columns

An int representing the number of columns the table will have.

Returns

A [Table](#) object representing the newly created table.

Examples

C#

```
Table tbl = pos.InsertTable(2, 3);
```

vb.net

```
Dim tbl As Table = pos.InsertTable(2, 3)
```
