Comment.GetCharacters(Int32)

Description

Returns a CharacterRun object representing a range of characters within the comment text. Use this to set the font on specified characters within the text.

C#

public virtual CharacterRun GetCharacters(int startIndex)

vb.net

Public Overridable Function GetCharacters(ByVal startIndex As Integer) As CharacterRun

Parameters

startIndex

The 0-based character position at which to begin the character run.

Returns

A CharacterRun object representing a range of characters within the comment text.
