

Cell.ClearRichTextFormatting()

Description

Clears all rich text formatting within the cell. The font of the text will be set to that set in Cell.Style.Font.

C#

```
public void ClearRichTextFormatting()
```

vb.net

```
Public Sub ClearRichTextFormatting()
```

Examples

C#

```
cellA1.ClearRichTextFormatting();
```

vb.net

```
cellA1.ClearRichTextFormatting()
```
