

# ChartSettings3D.SeriesGapWidth

## Description

Sets or returns the gap width between categories of series values, as a percentage of the bar of column width.

**C#**

```
public int SeriesGapWidth{ get; set; }
```

**vb.net**

```
Public Property SeriesGapWidth() As Integer
```

## Remarks

The series gap width must be between 0 and 500.

The default series gap width is 150.
