

Worksheet.InsertRow(Int32)

Description

Inserts a row in the worksheet above the specified row.

C#

```
public void InsertRow(int rowNumber)
```

vb.net

```
Public Sub InsertRow(ByVal rowNumber As Integer)
```

Parameters

rowNumber

The 0-based number of the row to insert.

Examples

C#

```
ws.InsertRow(3);
```

vb.net

```
ws.InsertRow(3)
```
