

Worksheet.Select()

Description

Selects the current worksheet and deselects all others. To select multiple worksheets, use [Worksheets.Select\(\)](#).

C#

```
<p> public void Select()</p>
```

vb.net

```
<p>Public Sub <a class="unresolved" href="#">Select</a>()</p>
```

Examples

C#

```
ws.Select();
```

vb.net

```
ws.Select()
```
