

Cell.HasComment

Description

Returns `true` if a [Comment](#) object is associated with the cell.

C#

```
public boolean HasComment{ get; }
```

vb.net

```
Public ReadOnly Property HasComment() As Boolean
```

Examples

C#

```
bool noteAttached = cellA1.HasComment;
```

vb.net

```
Dim noteAttached As Boolean = cellA1.HasComment
```
