# OfficeWriter Excel Dialogs

| Dialog Title | Description |
|---|---|
| OfficeWriter Designer for Excel - Open Report | The Open Report dialog opens when you click the Open Report button. It allows you to open saved .rdl files. |
| OfficeWriter Designer for Excel - Step 1 of 3 | Step 1 of 3 opens when you click the Add Query button. It is the first step in the process of building a query to add to your report. |
| OfficeWriter Designer for Excel - Step 2 of 3 | In Step 2 of 3, you will select a saved database connection or create a new connection. |
| OfficeWriter Designer for Excel - Data Source Credentials | Use this dialog to provide data source credentials that specify how the report will link to the Reporting Services data. |
| OfficeWriter Designer for Excel - Publish Report | Use the Publish Report dialog to publish your report to the Reporting Services server. |
| OfficeWriter Designer for Excel - Report Parameters | When you view a report with parameters, the Report Parameters dialog will prompt you to enter parameter values. |
| OfficeWriter Designer for Excel - Valid Values | If the report with parameters contains an available parameter values list, the Valid Values dialog will display a list of valid values. |
| OfficeWriter Designer for Excel - Enterprise Feature | When you select a feature that is available only in OfficeWriter Enterprise Edition, the Enterprise Feature dialog will open. |
| OfficeWriter Designer for Excel - Insert Formula | The Insert Formula dialog allows you to add aggregate functions, report parameters and global variables to your report. This feature is available only in OfficeWriter Enterprise Edition. |
| OfficeWriter Designer for Excel - Formula Manager | The Formula Manager allows you to change, delete, and build new formulas. This feature is available only in OfficeWriter Enterprise Edition. |
| OfficeWriter Designer for Excel - Report Browser | The Report Browser dialog allows you to browse and view reports designed with OfficeWriter. |
| OfficeWriter Designer for Excel - Save Report | Use the Save Report dialog to save your report locally before publishing it to the Reporting Services server. |
