

PageSetup.PrintArea

Description

Sets or returns the area of the worksheet that will be printed. Content outside of this area will not be printed.

(This is not supported for charts.)

C#

```
public Area PrintArea{ get; set; }
```

vb.net

```
Public Property PrintArea() As Area
```

Remarks

By default all of the content will be printed, and PrintArea will return an area covering the entire worksheet.

When rendering to a PDF document, only content within the worksheet's PrintArea will be rendered.

Examples

C#

```
//--- Get PrintArea
    Area prntArea = ps.PrintArea;

    //--- Set PrintArea
    ps.PrintArea = prntArea;
```

vb.net

```
'--- Get PrintArea
    Dim prntArea As Area = ps.PrintArea

    '--- Set PrintArea
    ps.PrintArea = prntArea
```
